Dear neighbour

I'm your local ambassador for Nabohjælp, the Danish neighbourhood watch aimed at preventing burglaries. I coordinate our joint efforts against burglaries.

Please contact me if you have any questions or need more information

Burglary has a way of spreading

Therefore we all need to keep our eyes open in our neighbourhood:

- Go for walks often – a lively neighbourhood is less attractive to burglars
- Keep an eye on the houses near you when your neighbours are away
- Say 'hi' to everyone you meet when you are out walking. If you meet a burglar your 'hi' might scare him away. If it's a neighbor it's just nice to be greeted
- Contact me! If you see or hear anything suspicious, or if your house has been broken into, I will write a warning in the Nabohjælp app

Are you going on holiday? Make sure the burglar will not notice you're away

- Leave some dirty dishes in the kitchen and a few things scattered around your house to make it seem like you are at home
- Motion sensor lights around the house will help keep the burglar away
- Hedges and bushes are the perfect cover for a burglar, so try to avoid them
- Above all: Tell your neighbours that you are away! Burglars know nothing worse than observant neighbours, so ask yours to keep an eye on your house while you are away
